## SHIPPING

For orders under \$500, shipping is \$80 + tariffs, as fixed handling and shipping costs are higher for smaller parcels.

For orders over \$500, we offer a reduced shipping rate of \$50 + tariffs, so larger orders benefit from better pricing while still getting the same fast and reliable service.

Australia and New Zealand

For Australia and New Zealand, only one shipping option is available: Regular Shipping — \$60, delivered via Australia Post. No additional payments are required.

Please note that we require up to 10 days to prepare your package before shipment.

While we always aim to provide the selected shipping method, express shipping is not always available depending on location or logistics conditions. If express delivery cannot be arranged, we will ship your order via regular shipping and automatically refund the \$50 price difference.

### Bulk orders

If your total exceeds \$ 500, you get 5% discount.

When your total exceeds \$ 1000, you get 10% off.

When your total exceeds \$ 2000, you get 15% off.

This type of discount works from your first purchase.

### Bitcoin payment

For orders paid in BTC we provide **10%** discount, which can be added to other discounts.

**So max discount may be 25%**

## Reship and Refund Policy

We care about our customers and do reship if your parcel is seized or lost. That is to say, the delivery of the products you buy is 100% guaranteed.

However, we do not take responsibility in case of incorrect address or when receiver didn't pick up the parcel and it was sent back.

Please note that we indicate fake return address and if it is sent back it is lost forever. If you made mistake in address or if you want to change it, please contact us as soon as possible.

A parcel is considered lost if it is not delivered within 30 days since it was sent. The exception is island address (slow postal communication), delayed due to weather or other Force Majeure.

We do not take responsibility if the product was damaged during delivery.
